FOREWARD

Volume II of the Marriages of Tuscarawas County, Ohio, contain those marriages recorded in Book 4 and Book 5 of the records of the Probate Court and are for the years between 1845 and 1863. There are a few marriages in the book that took place in other years but recorded in these books. We have included them. There are a total of 5,544 marriages in this publication.

These original records are now faded, torn and very difficult to read. Please remember that every effort was made to copy this information exactly as it was recorded. We suggest that you check the original records if you have questions concerning any of the information contained in this book.

The following suggestions are made to facilitate research in this book:

PROPER NAMES - Many descrepancies will be noticed in the proper names as they appear on early records compared to present-day spellings. Original spellings have been retained. It would be well to search under all phonetic spellings of the name if it is not found under the usual spelling. Example: Casier may be found under Kaser. The original German spelling of Schumacher may be spelled as Shoemaker.

MARRIAGE DATES - Occasionally the year was omitted from the marriage record, but if the day and month were listed, we have written the year which appears on all the other marriages on that page followed by ?. Example: 1853? means all other marriages on this page were dated 1853.

MARRIAGE OFFICIALS - To conserve space we have given each marriage official an identifying code number. These officials and code numbers are found at the beginning of the book. Example: If the number 415 appears in the column under official (Off.), you will check page 7 and find that number 415 is J. J. Engelbach, a German Reformed Minister at Port Washington. All titles found for officials are included in the officials index. At the beginning of page 3 are abbreviations with their meanings. Example: M. G. means Minister of the Gospel. If no title is given following the officials name, this means there was none in the records.

PAGE AND RETURN NUMBER - This will facilitate identification if a certified copy is ordered from the Probate Court or you want to check the original record. Example: 165-5318 means page 165 and marriage return number 5318.

In submitting this book to the public, the Tuscarawas County Genealogical Society hopes that these records will be received as an honest and conscientious effort to present a permanent record of early marriages of this county. Errors will necessarily arise in the production of a work of this magnitude. This is especially true because of the poor quality of the original copy.

Volume I of the Marriages of Tuscarawas County, Ohio, from Books 1-2-3, for the years 1808-1844, was published in 1979.
